Sax-Forstegg was a community in eastern Switzerland from which the Henn family had previously emigrated to Stetten.

**Note from Reinhold Schembs in 2022:** There is no picture available of the actual entry in the church book. This is the transcript from the church book. It comes from a local family researcher (Mr. Braun). I was in contact with Mr. Braun many years ago and received the transcripts from him at that time.

**JDS Note:** I have translated the few words in the table from German to English for the English reader.
