

109 Cedar Street

Pasadena, Calif

June 1-33

Dear Paul:

Well, well its about time I wrote again. Well we're in town now, have been since the first of Feb. so thought I write now to see how you are & let you know where we're at. Well how are things going out there anyway & how's your good health? We're all fine. Rex is working steady now, has been for 3 months. He's night driver again at the produce place. There business is much better now.

Mother & Mr Ban are going up their place & about 4 more & that street are doing the same. Boy that street is a stinker I guess. Gee we're glad we're off it. I positively hate it there.

Mr Ban & Mother are going up north this summer prospecting for gold & will be gone for about 3 or 4 months.

I have a little Scottie female now & she's going to have puppies soon. Tippy is fine. Her last litter of four litters was 4 males & 1 female. Wasn't that good

Paul we sure enjoyed those pictures of your ranch. They were very interesting. The bell ranch sign was sure clever. How are you coming along with the house by now. How is your work or is there any. Tell me about your dogs too when you write.

Little Jo Ann is fine. She's 4 years old in July. She weighs 49 1/2 lbs now but she looks 6 years old. She's so tall.

I don't suppose Rex will ever get on the fire Dept here. Their cutting the city budget & the fire & police alike are getting another cut & cut in personal also. so I doubt if he'll ever get on. He took a test here some time back but has never heard a word of it.

Well Paul I don't know much more news you would think I would after not writing so long but there just isn't any more. Hope to hear from you soon again.
Sincerely
Edythe Kentfield
